

America, Where 55% of the People Now Own Their Homes

Nothing can give you more confidence in the future of our people, our institutions, and our country than the current report which shows home ownership in America has risen steadily ever since 1900 until today it stands at 55 per cent.

For the figure is the Census Bureau, noted in a press release from the National Association of Home Builders. And the full story is a striking picture of a durable and expanding nation — our America.

Home-owning rates 55 in home-owning states, but her average is almost identical with the national figure — being 54.5 per cent compared to 55. Several major states rank below us in home-owning rates, such as California, New Jersey, Illinois, Massachusetts, and New York.

In the year 1900 renters were over in the majority all over America, the home-owners' percentage being only 46. By 1940 it had risen to 50 — and the postwar building boom carried it swiftly up to 55 per cent by 1946, the latest year surveyed by the Census Bureau. Obviously the percentage is even higher today.

Since the construction boom has continued the last three years with little slackening, the rise in home-ownership also reflects a more comfortable scale of living. As late as 1940 the population 1900 was 3.7 persons per house. But by 1950 this ratio had come down to just 3.

The national association mentioned above reports America has built a total of 4 million new homes since World War II, a world production record. It is the greatest anchor for personal and political stability the world has ever seen, for it means that the majority of Americans have a roof over their heads which is their own, giving them something tangible to work and fight for.

When philosophies and foreign propaganda are dull and futile reading compared to the record of tangible accomplishment we ourselves have written in this broad and magnificent land.

## Famous Choir of Wayland to Sing Here

When the Wayland College International A Cappella Choir, under the direction of Dr. Shelby Collier, appears at 7:30 o'clock, on Saturday, Nov. 21 at First Baptist Church those in attendance will have the opportunity of seeing one of the finest vocal groups in the world and hearing a program in twelve languages.

The Wayland Choir, coming as it does from a Christian college, at all times opens the program with outstanding sacred musical numbers. This year the opening number is "Almighty God of Our Fathers." James, "They follow with such numbers as: "Send Out Thy Spirit," "Schubert's 'Bread of Life,'" Mueller; "O God, Our Help in Ages Past," "Craft-Holli's; "Grant Us Thy Holy Peace," Palestrina-Morgan, and close this group with "The Creation," Ritcher. Still another group that always finds popular favor is that of Negro spirituals, including such selections as "Sinners, Please Don't Let This Harvest Pass," "Work," and "Roll Jordan Roll," arr. Gilman.

Following the intermission, the choir wearing costumes from the many nations from which Wayland College faculty and students have come. Many costumes are irreplaceable. The singers enter to the Roll Call of Nations by Dr. Collier. This year they will come in pairs wearing costumes typical of the countries they represent.

Musical for this concluding part of the program is mostly folk music from Mexico and Brazil, where Wayland choirs have personally sung; Chile, Latvia, Sweden, White Russia, Japan, Hawaii, China, Korea and American Indian.

International students from Haiti, Greece, Mexico and Japan will be among the featured musicians in the ensemble groups that range from duets to sextets.

## GI Who Went Over to Reds Choses Army

TRAVIS AIR FORCE BASE, Calif. (UP) — Cpl. Edward Dickenson, a Virginia mountain boy who embraced communism, and then returned, was back on Lone soil today with plans to re-enlist in the Army.

Dickenson, 23, arrived here last night after a flight from Tokyo. He leaves at 3 p. m. today for Andrews Air Force Base, Washington, D. C.

"I want to ask the FBI to protect my family," he said. "I don't care about myself, but I can't want anything to happen to my family."

Dickenson said he hoped to re-enlist in the Army after spending a few days with his family at "Big Stone Gap, W. Va. He said he was "very glad to be back" in the United States.

## Dulles Sought to Question Canadian Spy

By HERBERT FOSTER

WASHINGTON (UP) — Senate investigators urged Secretary of State John Foster Dulles today to make a personal appeal to Canadian authorities to release Igor Gouzenko for questioning about Russian spy rings active in the U. S. government at the time of the Harry Dexter White case.

Chairman William E. Jenner (R-Ind.) said his Senate internal Security subcommittee is convinced that Gouzenko could provide "vitally important" new information about the Communist network to which White, Harold Galsner, V. Frank Cox and others allegedly funneled U. S. secrets.

Gouzenko is the former code clerk of the Soviet embassy at Ottawa, who was the star witness in a Canadian royal commission's 1946 investigation of Russian atomic espionage. He is now a ward of the Canadian government.

The subcommittee sought permission to question him earlier this month, but the Canadian government turned down the request on the grounds that Gouzenko has already told all he knows.

Jenner, in a message delivered by subcommittee Counsel Robert Morris, asked Dulles to do his utmost to get Canada to "reconsider" and let Gouzenko come to Washington.

The Senate subcommittee and the House un-American Activities committee are investigating charges that White and several other alleged Communist agents were kept in the government and even promoted by the Truman administration despite FBI reports linking them to a Soviet spy network.

## Neutrals May Set in But Can't Vote

By SAM SUMMERLIN

PANMUNJOM (UP) — The Communists said today they are willing to limit neutrals to a non-voting status on major issues at a Korean peace conference. U. S. Envoy Arthur Dean said the proposal "could offer a very fruitful basis for further negotiations."

Dean indicated the North Korean and Chinese diplomats have made a "prepared concession" and now appear to be awaiting further instructions.

There were growing indications that a compromise may be reached on the thorny issue of inviting neutrals to the peace conference biggest issue to be settled at the preliminary peace talks here.

Dean is spokesman for the United Nations and South Korean all of which have voiced opposition to neutral participation in the peace conference.

But the U. S. envoy noted that these nations assumed the Reds wanted neutrals to have full participation.

Dean already has said the United States would be willing to recommend inviting neutrals after a Korean settlement is reached or if the peace talks bog down. The Reds rejected this.

Meanwhile, explanations to Korean and Chinese war prisoners who have refused to go home remained at a standstill and there were no sign that the Reds would resume stalled interviews.

The Communists have refused to go along with new rules to speed up the program. Neither the Indian command, which oversees the efforts to woo the prisoners home, nor the Communists made any effort today to break the latest deadlock.

There have been no interviews since Monday.

## Checkers Is a Good Parlor Game But Can't Compete With Postoffice, Spinning Bottle

By HAL BOYLE

NEW YORK (UP) — Everybody is looking for a simple, inexpensive way to get rich without raising a sweat.

Well, we've stumbled across one possible way you can buy that gold-plated Cadillac you've always yearned for. All you have to do is invent a new parlor game half as popular as checkers.

The market is wide open. There is a big boom under way now in home games. And guess what is helping it along? Television, no less.

Robert B. M. Barton, president of the Toy Manufacturers of America, is happy to say a kind word for video, which has been denounced as a one-eyed viper responsible for everything wrong from the increase in adult delinquency to the rise in juvenile offenders.

## Mossadegh in Threat of Hunger Strike

By DON SCHWIND

TEHRAN, Iran (UP) — Mohammad Mossadegh today threatened a hunger strike to the death as chief dech asked a court-martial to send prosecutor Brig. Hossain Aemo-deh asked a court-martial to send the former Premier to the gallows.

It was the 73-year-old ex-ambassador's second suicide threat since the army court on Nov. 9 began trying him on charges he tried to overthrow Shah Mohammad Reza Pahlavi, defied the royal decree and dissolved the lower house of Parliament illegally.

He voiced his threat today after Aemo-deh said he would be put in solitary confinement if he continues to complain about his food, living conditions, and alleged attempts on his life.

Mossadegh shouted to the court that his life was in danger in prison, that he had been threatened "for the last two nights," and that the "army will kill me in the prison itself."

# Kidnap Killers of Little Bobby Greenlease to Be Executed on Dec. 18

## Japs Told They Must Have Defense Force

By WARREN DUFFEE

TOKYO (UP) — The United States made plain today it intended to push its drive to have Japanese troops take over their own defenses in the Far East fight against communism.

In a major policy statement which strongly reiterated the program for which America has been working quietly, Vice President Richard M. Nixon told the Japanese they would have to recruit whether they like it or not.

The Japanese thus far have shown little enthusiasm for rearmament. Forces led by Prime Minister Shigeru Yoshida favor ultimate reconstitution of Japanese armed forces, now outlawed under the American-sponsored constitution. But opposition forces are largely opposed, and the people in general are apathetic since war was far less its glamour after this country's defeat in World War II.

"The principle responsibility of Japan's defense must rest on Japan and the Japanese people," he said.

## Dewey Wins Fight to Oust Wicks

ALBANY, N. Y. (UP) — Sen. Arthur W. Wicks formally stepped down as acting lieutenant governor of New York after a bitter quarrel with Gov. Thomas E. Dewey ending in victory claims by both camps.

The Republican row seemed certain to tear early unity and delight the Democrats in next year's election campaigns.

Wicks submitted his resignation yesterday as GOP majority leader and temporary president of the State Senate through which he held office of acting lieutenant governor. The action was announced minutes after Senate adjournment of a special session of the Legislature.

Dewey and the GOP state executive committee had insisted that Wicks, because of visits to labor extortionist Joseph S. Pay in Sing Sing prison, resign his leadership or be ousted at the special session.

Wicks maintained he had heard no word of censure from his fellow senators about his visits to Pay and claimed complete vindication. He said he resigned because his conflict with Dewey would mar state business.

But Dewey declared he had called for Wicks' resignation because of the Pay visits, and said "the resignation speaks for itself."

## Five New Cases of Polio in State

LITTLE ROCK, (UP) — Five new cases of polio were reported in Arkansas during the week ended last Saturday, according to the state board of health's morbidity report issued today.

Three were paralytic, one was non-paralytic, and one was unclassified. No deaths from the disease were reported during the week.

The figure compared with three the week before and eight the same week last year. The year's total is 301, compared with 371 at the same time last year.

The new cases were reported in Ashley, Carroll, Desha, Monroe and Lonoke counties.

## Lewisville Men Sentenced in Federal Court

In U. S. District court at Texarkana yesterday Willie and Loyce Blankenship, of Lewisville, charged on two counts of violating the internal revenue laws, were sentenced to two years in prison on one count and placed on five years probation on another.

Judge Harry Lemley ruled in favor of the government in a civil suit arising out of the arrest of Willie Blankenship and styled U. S. vs. 1933 half-ton Ford pickup truck. The truck was seized by officers in a raid on a still. Lemley declared that Blankenship had forfeited his right to the truck.

Green A. Linker, Lewisville, pleaded guilty to four counts of liquor law violation and was sentenced to 18 months in prison on one count and three years probation on the others.

## 67 in Nevada County to Be Repaired

LITTLE ROCK (UP) — Bids will be opened here Dec. 3 on 11 road and bridge projects, including two for widening and surfacing a total of 24 miles of Highway 70, the main Little Rock-Memphis traffic artery.

The estimated 3,500,000 total will make the letting the second largest since the present Highway Commission took office.

The Highway 70 jobs will be in St. Francis and Monroe Counties. Together they will extend for 24 miles from the junction of Highway 17 west of Brinkley to Palestine.

Some resurfacing in Forrest City will be included.

Right of way difficulties prevented Highway Department officials from advertising for bids for paving of the Pulaski County end of the Little Rock-Benton relocation of Highway 67-70.

Work has started on surfacing of the Saline County end.

Besides the two Highway 70 projects, bids are being advertised for on these jobs:

Cross County, a concrete and steel bridge over the St. Francis River at Parkin on Highway 64.

St. Francis County, resurfacing of the St. Francis River Bridge east of Forrest City on Highway 70.

Nevada County, widening and resurfacing of 0.5 miles of the Prescott-Gordon Road, Highway 67.

Polk county, grading and gravel base of 11.9 miles on the Oklahoma line-Munn Road, Highway 8.

Garland County, grading and gravel base of 5.9 miles on the Hot Springs-Ola Road, Highway 7.

Union County, 2.5 miles of grading bituminous surfacing and five bridges on the Magnolia - Strong Road, Highway 12.

Clay County, widening and resurfacing of four miles and widening of four bridges on the Corning-Poachontas Road, Highway 67.

Mississippi County, 1.3 miles of grading and bituminous surfacing and five bridges on the Manilla-Antheilston Road, Highway 77.

Poinsett County, 7.5 miles of grading, gravel base and three bridges on the Harrisburg-Vandale Road, Highway 1.

## Reds Boast U. S. Agents Smashed

BERLIN (UP) — The Communists said today they have "smashed a band of American agents" in Soviet Germany.

The Red agency ADN said an undisclosed number of anti-Communists were arrested in a coal mine near the industrial city of Leipzig, where they were "plotting to blow up a conveyor belt."

The report increased to at least 112 the number of "agents, terrorists and saboteurs" said to have been arrested in the Soviet zone during the past three weeks.

## Jury Verdict Takes Little More Than Hour

KANSAS CITY (UP) — The kidnap killers of Little Bobby Greenlease were sentenced today to die Dec. 18 for their crime.

U. S. District Judge Albert L. Reeves passed the death sentence on Carl Austin Hall, 34, and Mrs. Bonnie Brown Heady, 41, within 11 minutes after a jury of 12 men recommended that they pay the supreme penalty for their confessed crime.

It took the jury of 12 men one hour and seven minutes to give Judge Reeves authority to send the pair to the gas chamber. Judge Reeves had told the jury the two were cold blooded murderers and there were no mitigating circumstances for their crime.

As the jurors waited into their room to decide the case each was handed a slip of paper that said: "Do you recommend the death penalty?"

All they had to do was write one word: yes or no.

The jury returned to the courtroom in a single file, passing with solemn faces directly in front of the two confessed kidnap killers.

Mrs. Heady, the pudgy faced alcoholic, stood at the right of Hall, weptful playboy when the judge pronounced the sentence.

Judge Reeves asked if they had anything to say.

Hall said clearly: "No, sir." Mrs. Heady shook her head in the negative.

Then Judge Reeves said solemnly: "I accept the recommendations of the jury. It is my duty to accept and adopt the recommendations of the jury."

Since neither had anything to say, Judge Reeves said it would be the judgment and sentence of the court that they be executed in the gas chamber at Jefferson City on Dec. 18 — just one week before Christmas.

He read the sentence twice — once for Hall, then in the same words for Mrs. Heady.

The kidnapers' faces did not change expression. Both apparently were resigned to their fate.

Robert C. Greenlease, multi-millionaire father of Little Bobby who paid the kidnapers \$600,000 ransom some days after his child had been slain, watched the climax of the trial with set jaw.

He said he did not know whether he would witness the execution of the killers.

Roy K. Dietrich, Hall's court-appointed attorney, sought to delay the sentencing so he could study the record of the trial, but withdrew his objection after Judge Reeves assured him he would be given a chance to file any motions necessary to protect Hall's constitutional rights.

District Attorney Edward D. Sheffer asked the judge for an immediate sentence, and Reeves complied without delay.

Judge Reeves then adjourned court and the room in which the dramatic proceedings had been conducted was cleared within minutes.

As he left the courtroom, Dietrich commented of the sentence: "It's too good for them but it's the best the law provides."

## Housewives May Get Break on Butter

WASHINGTON (AP) — Housewives may get a break on butter prices if Secretary of Agriculture John T. Benson adopts a plan advanced by one of his advisory committees.

The plan, a one-day proposition designed to clean out the huge stocks of surplus butter now piled up in federal storages, came up yesterday at the opening of a two-day meeting of leading dairy industry representatives. Details were to be worked out today.

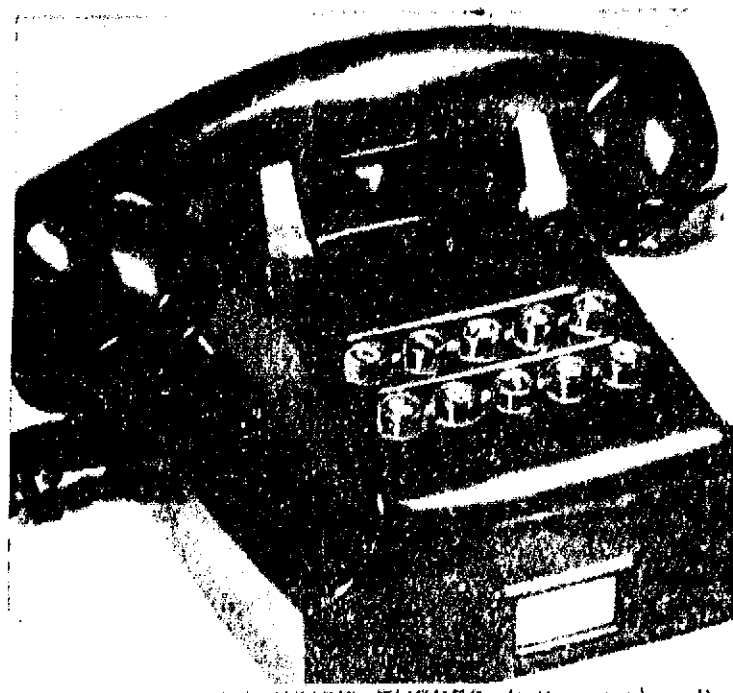

Benson asked the dairy leaders and the butter and cream manufacturers who are also holding two-day sessions here to give the national agricultural advisory commission with their views on future farm programs.

The commission is readying recommendations for administrative changes which will be presented to Congress in January. Although the meetings yesterday and today were secret, reports indicated that the butter disposal plan and these long-range programs are being considered by the three committees.

Dairy — A farmer-financed dairy price support operation is recommended by the powerful milk producers' federation in Washington, D.C. Last week, farmers would chip into a pool fund managed by a presidentially appointed stabilization board. The "pool funds" would be used to do most price support buying of dairy products in times of surplus production.

Butter — A two-price program providing for federal support at one level on pounds produced for public purposes and at another level on pounds produced for domestic and export use as all.

Price — A multiple-price plan, which while not needed at present time of high export demand, might be held in reserve on a "stand-by" basis if the plan reportedly feels undersold by competition.

**BUTTON, BUTTON WHO'S THERE?** Buttons replace the conventional dial on a new telephone developed in Stockholm, Sweden. The man answers a call, since the caller doesn't have to wait for the "dial" before the dial after each number.

by being. It would keep high supplies on the producer for longer periods, but allow exporters to be sold at a lower world price when foreign competition stiffens.

Here's how the low-cost, butter stock disposal suggestion would work.

Processors would buy surplus butter from the government at a fixed price and add it to their own production, and sell the whole at a proportionately reduced price.

For example, a processor who normally sold 100,000 pounds of butter for a week at 60 cents a pound would get another 100,000 pounds of government butter for 30 cents a pound. He then would sell the entire 200,000 pounds for 45 cents, halfway between his normal price and the low government price.

While the blended price move to go along it one or more processors would be voluntary, the group decisions decided to or they would be held in reserve on a "stand-by" basis if the plan reportedly feels undersold by competition.

ARKANSAS (AP) — A wealthy manufacturer of textile machinery who left behind the loved textile manufacturer explained that he had been able to find no joy in his life.

Police found the two men dead in their beds and found a note in the bathroom still clutching the pen with which he had taken their lives and is own.

A bullet, fired from a gun and keeping its peak muzzle velocity, would require seven years to reach the sun.

Richardson, 39, who had invested a part of his fortune in the United States and had returned only recently from New York, committed the double murder and suicide yesterday, police said. But it was not discovered until a hotel telephone operator became suspicious when there was no response to phone calls to the suite.

The evening before he snuffed out his life, Johnson had taken his wife and mother-in-law to see Eisenhower may feel free to give him the kind of roughing up he must have hoped would never happen to him.

Johnson claimed in his Monday morning broadcast that he kept White on because there was not enough evidence in the early FBI reports to convict him, and to give the FBI more time to check on him and others.

However, by his testimony before the committee yesterday, indicated such a decision was strictly Truman's. He said it was taken not with FBI urging or approval but actually with FBI disapproval.

Truman already has accused Brownell of raking up the White case for purely political reasons. A combination of this kind of examination by the Republican-dominated committee might influence next year's congressional elections.

If the Democrats in Congress share Truman's view, and some of them have indicated they do, then next year should be a strange year in Washington.

each year, of which only about two per cent are put on the market, he said. "Most of them are invented by professionals, but some of the best are the work of amateurs. Sometimes the amateur is closer to the public mood."

An example was Charles Darrow, an unemployed Philadelphia engineer, who in 1933 invented "Monopoly," one of the most popular news games of this century. It has sold by the millions and Barton feels it will go on forever.

"Darrow retired and lived happily ever after, he said, 'but what he did was roughly comparable to Margaret Mitchell's writing of 'Gone With The Wind. He hit the jackpot."

"But usually one game like one song or one book, doesn't make you wealthy."

Game publishing resembles song and book publishing in many ways, said Barton. "You can spend anything from \$10,000 to \$150,000 marketing a new game — and lose it all. It has to hit the public, and you never can be sure what the public will like."

Barton himself recently originated the basic idea for a new home game, "Keyword," a crossword board game, and is as nervously hopeful for its success as any amateur.

"When it comes to this field, he said, 'a housewife with a fresh idea may make the oldest professional game inventor look like a beginner. She may be closer to new trends. The main thing about any game is that it must be fun."

Barton says chess is still the most popular game in the world, but is a crowded 50-to-1 by checkers in America.

"I wish I had the sole rights to checkers, he said, wistfully. A group of other games he would like to own—if he could find a way to collect the royalties — are those old parlor pastimes: "Postoffice" and "Spin the Bottle."

"We don't have anything to compete with them, he admitted, ruefully. "The trouble with those games is the players don't need any special equipment. They're too simple — just a boy and a girl waiting for the next move."

## DOROTHY DIX

### 'Old - Fashioned' Girl

Dear Miss Dix: I'm a high-school junior. Because of my strict bringing up, I am rather different from most of the girls in school — they call me old-fashioned. According to my parents' theories, a young lady doesn't whistle, swear, drink, smoke, wear dungarees on the street or raise her voice. She should, they say, respect her elders, sit and stand with poise, know how to prepare meat, how to sew, how to keep a house neat and orderly. Of course, there were many times when I thought my folks were being unfair to me but now I am grateful because there were many times when the boys as my girl in my class, which proves that proper behavior is no detriment to dating. I wish other girls could learn as much as I have.

LORETTA

A. "Well Done" For Parents  
Answer: Your Mom and Dad certainly are to be commended for the efforts they made in training their daughter. It isn't easy, at today's pace, to teach a daughter the things you have learned. Most young people resent being kept indoors while the rest of the gang is skating or playing games, so Mom finds it easier to shoo daughter from the

kitchen rather than discuss why she should stay there. It's also difficult to impose rules of conduct that the rest of the crowd find completely opposed to their mode of living.

Yet, the uninhabited teenager eventually discovers that she lacks the poise, assurance, and graciousness that the result of years of careful training. Confidence rarely comes automatically to a girl, but if she has been taught from childhood to do and say the right thing at the right time, to greet people properly, to engage in conversation without awkwardness, she has won a good part of the battle of life. More mothers should take the time to instill these principles of living into their daughters; they are invaluable assets.

Young ladies, as you described them, are by no means rarities. They are, perhaps not so conspicuous as their less repressed sisters; hence their numbers may not be accorded the appreciation they really deserve. I'm sure, Loretta, your behavior will serve as inspiration to other youngsters striving to improve their manners and attitudes. Do remember, though, to restrain any tendency to snobbishness or

## Juvenile Delinquency Probe Starts

WASHINGTON (UP) — A Senate subcommittee launched a series of "deadly serious" hearings today to probe for the causes and, if possible, to determine the cure for the alarming national problem of juvenile delinquency.

In a prepared opening statement, Chairman Robert C. Hendrickson (R-N.J.) announced that the purpose of the sweeping investigation is not to produce "sensational type publicity" but to find and present the sober facts.

He praised the United Press in a separate comment for a recent series of dispatches on the delinquency problem, said he would introduce them into the record.

The series, leading off with a statement by FBI Director J. Edgar Hoover, featured close-up reports from various parts of the nation. "Any constructive approach like this is to alert the people to the problems of juvenile delinquency is to be welcomed," Hendrickson said.

superiority. That would entirely defeat your purpose.

Dear Miss Dix: I'm a girl of 19 and very much in love with a boy the same age. He's away at college, but we see each other every week end. We've been going steady for two years and want to postpone marriage until he finishes college. My friends say we are wrong. They say we should get married now. They say when two people go together for so long they fall out of love.

JULIA

Answer: Who is to support the family if you marry now? Your husband or your friends? It's so easy for other people to give gratuitous advice in the guise of "friendly opinion," but the true test of their sincerity lies in the question "what would they do in your position?" Since the responsibility falls on you, and your fiancé, the decision is up to you. If you truly love each other, your feelings won't change in a and a half. The better part of discretion is to wait. You are both young enough to bear postponement.

Dear Miss Dix: I've been going with Jim for some time. We've made quite a few promises to each other, but I always seem to break mine. Now I want him to promise me something very important and he won't. He says I must give proof that I can live up to a pledge before he makes another one.

D. I.

Answer: Since you put no value on a promise, why expect anyone else to do so? Even if your friend does accede to your wishes, he has more obligation than you to keep his promise. Make your own word of honor mean something before exacting assurances from other.

Hendrickson called attention to a local tragedy in Baltimore "how deadly serious is the nature of our work" and "how close to this a dozen all of us can be."

He described the background of juvenile delinquency of a Washington, D.C., boy held in the shooting of a secretary of Sen. Kevin C. Johnson (D-Colo.), whose office is just across the hall from those of Hendrickson and Sen. Thomas C. Hennings, Jr. (D-Mo.). Hennings is the only other member of the subcommittee on hand for the hearings.

He said that "We'll find out who is ready, who is doubtful and who won't play — if anyone."

## Woman Kills Mother With Hammer

NEW YORK (UP) — A mother killed her sleeping husband with a nine-pound stonecutter's hammer early today because he planned to move the family to its fourth home within a month.

Mrs. Dorothy Kemmer, 43, then attempted to kill herself and her 10-year-old son Robert with gas.

The boy escaped from his mother's grasp and ran to a neighbor for help.

Police found Richard Kemmer, 43, a real estate salesman, dead beside his bed in his family's attractively furnished, four-room apartment. After questioning the nearby electrical wire, Police Capt. Bernard Schneider placed together this story:

The family came here from California about a month ago and moved into a house in Astoria, Queens. Later it moved to Hollis.

spurred her.

The prosecution brought out that Pauline had tried suicide once before Bailey's death, and again last Oct. 27.

Attorney Rene Florio, Bailey's family lawyer, reacted:

"You make a mess of your suicides. Only your murders are successful."

## 'Evil Angel' on Trial for Slaying Lover

PASADENA (UP) — The state charged today that "the evil angel," a sultry redhead who has admitted slaying her love, was guilty of cold-blooded murder and not a crime of passion.

The girl, Pauline Duboisson, 26, has admitted shooting Felix Bailey, 27-year-old little medical school student, on March 17, 1951, after he spurred her to keep a date with another.

Pauline insists she intended to commit suicide when she lost Bailey's affections. But the prosecution charged she committed a coldly premeditated murder.

Yes-yesterday envious Pauline told the court she had repented Bailey's "physical" affections before she pumped three bullets into him and then put a gas pipe in her mouth in an unsuccessful suicide attempt.

She said she heard Bailey planned to marry blonde Monique Lombard, and then saw him for the first time in two years. She said Bailey asked her to spend the night with him.

"Do you mean to say," the judge asked, "that he asked you and that you accepted, with the photograph of his fiancée by the side of his bed?"

Almost inaudibly, while the crowd in the courtroom leaned forward to hear, Pauline responded:

"There are sentiments which one is sometimes unable to control," Pauline insisted she bought a gun to commit suicide if Bailey

Queens. There was a bitter quarrel between husband and wife last night after he said he planned to move the family again. He went to sleep after the argument ended, and the wife went to a bed chest and got the hammer. The condition of the body indicated the husband survived the first hammer blow and resisted, but was too tired or weak to say himself.

The wife told police: "It's all over now. No more moving."

She gave no explanation for the frequent moves.

Police said Mrs. Kemmer would be charged with homicide.

## Thrill Maker from start to stop

(That's T.T. Dynaflo!)

SOMETIME soon—like this week —you ought to try a Buick with Twin-Turbine Dynaflo.\*

You ought to try it just to be familiar with the great advance in this fully automatic transmission that Buick engineers have accomplished.

You ought to try it just for the fun of bossing a drive where you don't do a blessed thing but steer and press the gas or the brake pedal as you go.

But, pure and simple, you ought to try it for thrills.

We mean the thrill of instant getaway response—with two

turbines doing the job that one did before.

We mean the thrill of whisper-quiet acceleration—where you barely hear the sound of power build-up, or of flowing oil at work.

And, most emphatically, we mean the thrill of perfect and sublime smoothness from start to stop—the thrill of moving from standstill to and through all travel ranges in one, progressive, infinitely smooth forward "carry" without a gear ever shifting or a clutch-pedal pushed—the thrill, rarely found elsewhere, of silky smoothness in deceleration, too.

Will you be our guest at a sampling of a Buick with T.T. Dynaflo?

Will you try the sweetest, the smoothest and the simplest-to-operate automatic transmission yet devised—and powered by the highest-compression engines in Buick history, including the world's newest V8 in SUPER and ROADMASTER models?

Drop in on us this week and we'll be happy to accommodate you.

## PRESCOTT NEWS

Thursday, November 19

The Business Women's Circle of the First Baptist Church will meet Thursday evening at 7:30 in the home of Mrs. Harlan Bradley.

The choir of the Presbyterian Church will meet Thursday evening at 7:00.

P. T. A. Has November Meeting

Mrs. H. H. McKenzie, President presided over the Prescott Parent Teachers Association which met November 12 at the Park Elementary School with the largest attendance of the year.

Mrs. Frank Anderson gave the Devotional from Proverbs 22:6 — "Train up a child in the way he should go: and when he is old, he will not depart from it."

Minutes of the last meeting and the executive meeting were read by Mrs. Carl Dalrymple.

The President's message was read by Miss Gray.

Miss Vernon Buchanan gave the report of the Budget Committee and read the Treasurer's report to Mrs. Lela Hayes and her sixth grade pupils who presented several delightful numbers of Thanksgiving nature.

Mrs. Harston next introduced Mrs. Jess Hays who presented a most interesting talk on Student Opinions taken from the suggestion box in which they gave their ideas of school home and community. The following facts were given: Children in the first grades like everything about their school, home and community. Graduates and 6 also like their homes, school and are not to critical. Pupil in grades 7 and 8 like home, say they have pretty good school but would like more noon activities and additional equipment for play. High School students like the American way of participation in school affairs, like teachers and classmates but express a need for maps, Honor Societies and recreation facilities. As parents we can arrange our homes so they are physically conducive to home study. Let us take off our "rose colored glasses" and see what our children are studying.

Mrs. McKenzie and Mrs. Buchanan attended the District meeting at Fairview School and Miss Fredericka Moberg participated in a panel discussion.

Mrs. Floyd Hubbard announced the visitation at the Primary School which was November 13.

Mr. Harold Smith on behalf of his faculty and students thanked the PTA for money to buy books.

Mrs. J. B. Bemis invited new members to get their year books. In the room count the following were winners: Primary, Mrs. S. A. Greer; Park Elementary, Mrs. H. F. Diddy; Jr. High, Mrs. Martha Craig; High School Juniors and Seniors tied.

City Council Of Garden Clubs Meets

The City Council of Garden Clubs met on Friday afternoon in the home of the president, Mrs. N. N. Daniel with fourteen members present to plan the "Holiday House" to be held on Tuesday, December 15.

The Southern Pine Garden Club will show a modern Christmas, The Rose Garden Club a children's Christmas, the Rainbow Garden Club an old fashioned Christmas and the Prescott Garden Club will sponsor a tea in homes that will be announced later.

A dessert course was served at the close of the meeting.

Black-Hoe

Vows Exchanged

## Plain States to Get First Blizzard

By United Press

The first blizzards of the season were forecast today for the Western Prairie states, but balmy Indian summer weather made a last stand east of the Mississippi.

A heavy storm last night and early today had already blanketed the Rocky Mountain states with up to 11 inches of snow, almost paralyzing traffic and posing a threat to big game hunters camped in wilderness areas.

The mountain storm, however, was not intense enough to be officially classified as a blizzard.

The weather bureau forecast true blizzard conditions today for West and Central Nebraska and Western Kansas. The mercury was not expected to climb above 30 degrees in the storm centers and up to six inches of snow was forecast.

The front of cold Canadian and Pacific air which precipitated the snow storms was marching southward at a fair clip, but it moved

## MEMO TO ADVERTISERS

Coal—by the ton

There are standards

for advertising, too!

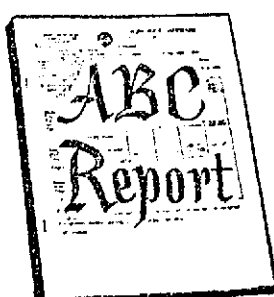

What a fix we'd all be in without those standards of measurement for the goods you buy and sell. Imagine the confusion, waste and doubt in business transactions if we didn't have accepted standards of weights and measures—known values.

We believe it is just as necessary for us to tell you what you get for your advertising dollars, in terms of known circulation value, as it is for you to do business with your customers on the basis of recognized standards. That's why this newspaper is a member of the Audit Bureau of Circulations.

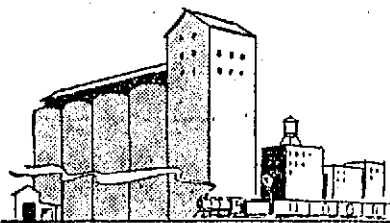

WHAT IS THE A.B.C.? The Bureau is a cooperative and nonprofit association of 3450 publishers, advertising agencies and advertisers in the United States and Canada. Organized in 1914, A.B.C. brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

WHAT A.B.C. DOES FOR YOU. At regular intervals one of the Bureau's large staff of experienced circulation auditors comes to our office and makes a thorough audit of our circulation records. He has access to all of our books and records to obtain the FACTS that tell you what you get for your money when you advertise in this newspaper.

WHAT A.B.C. REPORTS TELL YOU. The circulation FACTS obtained by the A.B.C. auditor are condensed in easy to read A.B.C. reports which tell you: How much circulation we have; where the circulation goes; how it was sold and many other FACTS about the audience we provide for your sales messages. Make your advertising investments on the basis of this audited information. Ask for a copy of our A.B.C. report.

## U. S. Ends Case Against Kidnapers

By AL DOPKING

KANSAS CITY (AP) — The government concluded its case today against the kidnap killers of 6-year-old Bobby Greenlease whose mother climaxed testimony by confronting them in federal court with the lie they used to get \$800,000 in ransom after the boys could be found.

The government wrapped up its case quickly on the third day of the trial to determine whether Carl Austin Hall, 34-year-old playboy who turned criminal, and Mrs. Bonnie Brown Heady, 41-year-old divorcee, are to die in the gas chamber.

The closing testimony was largely corroborating evidence already admitted. Several FBI agents testified.

The defense was expected to move swiftly towards conclusion of the case. It has called only six witnesses — five for Hall and one for Mrs. Heady. Her only witness will be her aunt Mrs. T. R. Baker, Chicago, who raised her after the death of her mother.

U. S. District Attorney Edward Scheufler said he expected the case to go to the jury late today. In an unflinching voice, Bobby's attractive mother told the jury yesterday how Hall repeatedly assured her that her only son was alive even though he had been slain soon after his kidnapping from a private Catholic school.

Her multimillionaire husband, Robert C. Greenlease, sat only a few feet from Hall. The 71-year-old automobile dealer watched her closely as she talked. He had been there all day, listening to the government press its case for the death penalty for Hall and his alcoholic lover, divorcee Bonnie Brown Heady. Both have pleaded guilty.

At times his jaw tightened. His teeth clenched. And occasionally he would study Hall, who served in World War II as a Marine only to come back to a life of crime. Beside him sat Robert Lederman of Tulsa, Okla., his business associate, who had acted as an intermediary.

Mrs. Greenlease' voice was as she told of her first talk over the telephone with the kidnaper last Oct. 4, six days after her boys abduction.

## Man Questioned in Kidnaping

TAMPA, Fla. (AP) — New York police were on their way here today to pick up a man wanted for questioning in the kidnap-rape of a 13-year-old girl last Friday.

The man identified himself as Anthony James Palazzola, 26, when he walked into police headquarters here and surrendered late yesterday.

He carried a newspaper with a story of the crime and a picture of himself.

"This is my picture, the stocky, curly-haired man told detectives. "They are looking for me in New York."

Detective Sgt. Neil Brown said he was satisfied from comparison of the picture and from a description telephoned by New York police that the man was Palazzola.

He was held in county jail without charge. Brown said he waived extradition and agreed to return to New York.

## Oklahoman Claims Robbery at Spa

HOT SPRINGS (AP) — An Oklahoman told police today that he was robbed of \$6,000 by an armed hitchhiker near here last night.

The victim, who identified himself as Frank Alcorn of Alvin, Okla., reported the robbery to the sheriff's office in Malvern, who notified Garland County officers.

## Spies Locked in Deadly Game

By RICHARD K. OMALLEY  
FRANKFURT, Germany (AP) — Allied intelligence men are deep in a constant espionage war which knows no international boundaries and is fought for the most part in secret.

It is a savage conflict. The Russians spew out spies regardless of losses in their efforts to pierce the security of the West.

Only the big cases reach the public. The Russian atom spy ring in Canada started it. Just recently, Rudolph Ressler, master Russian spy, was netted in Switzerland. Norway security battle flared into the open this week with the arrest of five persons in a Soviet spy roundup.

## Killer Smog Lifts From Over London

By RAE CORELLI

LONDON (UPI) — Britain's "killer smog" slowly lifted from London today, but persisted elsewhere in the country.

Britons who choked and stumbled blindly through darkened streets yesterday and last night cleared their throats and put off wearing their smog masks of gauze and adhesive tape.

The Royal Automobile Club said "fog" is lifting in many parts of the London area and nearby counties, and visibility on most roads is about 150 yards.

However, the air ministry was pessimistic from long experience and predicted that "widespread fog" is expected again this evening.

Earlier, the Greenwich observatory said the current fog had a greater concentration of smoke and sulphur dioxide than the deadly one which took 4,000 lives last year.

The hate engulfed 25 counties of this island kingdom yesterday. Last night it retreated temporarily. But the air ministry weather bureau reported it would be widespread today.

A wooded area between Hot Springs and Malvern this morning for the bandit.

Alcorn told police that he picked up the hitchhiker in Hot Springs, and started driving toward Malvern, 22 miles east of here. About halfway, Alcorn said the man pulled a gun and took the \$6,000.

He said the bandit fled on foot into the woods.

## Cotton Belt Would Switch to Tyler

WASHINGTON (AP) — An Interstate Commerce Commission examiner recommended today that the St. Louis Southwestern Railway Co. (Cotton Belt) be authorized to merge its Missouri and Texas

airports yesterday as incoming and outgoing flights were cancelled or delayed. Many took trains, also hindered, to complete their journeys.

The examiner noted that virtual-

The superintendent of motive power who has functioned for both companies at Tyler will be transferred to Pine Bluff. In addition, certain maintenance facilities, including a cabinet and paint shop, with about 10 employees, will go to Pine Bluff.

NEW YORK (AP) — A lad whose football career was believed ended by illness last spring — Bill Fenton, Iowa end — was named the Associated Press Lineman of the Week today.

Iowa surprised Minnesota 27-0 and Fenton's feats in sweating Minnesota's famed Paul Glendon earned him the nod in the weekly voting by sportswriters and broad-

casters. Glendon was held to a mere 13 yards by rushing.

"That boy Fenton was in my hair all afternoon, Glendon said. "He was terrific, all right."

Other nominations included end Carl Allison of Oklahoma and guard Harold Spahn of Arkansas.

## Baptists Name New Officer at Meeting

By BEVERLY WOOD  
HOT SPRINGS (U) — The Rev. W. O. Vaughn Jr., today was elected president of the Arkansas State Baptist Convention.

The 42-year-old pastor of the Immanuel Baptist Church in Little Rock defeated the Rev. W. R. Vestal, pastor of the First Baptist Church of Searcy, in a run-off election.

Three other candidates were eliminated in the first balloting. They were the Rev. Don Hook of Malvern; the Rev. John L. Dodge of Hot Springs; and the Rev. Ray Gary of Rogers.

Mr. Vaughn succeeds The Rev. Lloyd A. Sparkman of Pine Bluff, who is stepping down after serving two terms as head of the Convention, largest organization of Baptists in Arkansas.

The Rev. Steel T. Jones of Pine Bluff was elected second vice president. Dawson King of Little Rock was re-elected recording secretary and Dr. Ben L. Bridges of Little Rock was named to another term as executive secretary and treasurer.

The Executive Board's report and the proposed 1954 budget of \$120,460.90 must be approved by the 100th annual session this morning.

## Ministers Wives Told to Mait

HOT SPRINGS (U) — If ministers wives don't like their husbands' taste in clothing or his choice of words in a Sunday sermon, they should keep quiet—at least for three days.

A panel of Baptist ministers wives decided that Wednesday is the ideal day to mention anything uncomplimentary to their husbands.

"It takes that long for them to simmer down," said one panel member.

The occasion was the annual ministers wives conference, which preceded the opening session yesterday of the Arkansas Baptist State Conventions meeting.

The wives also handed out this advice: always send thank-you notes for gifts; don't exchange confidences with members of the congregation; and don't entertain one family at a time in the parsonage.

## Woman Is Charged With Slaying Two

HOT SPRINGS (U) — Mrs. Velma Lorene Swafford, a 36-year-old registered nurse, was scheduled for formal arraignment today for the poison deaths of her two small children.

After Mrs. Swafford, who also tried to kill herself, is taken from her hospital bed to the courtroom on a stretcher, officials plan to have her removed to State Hospital at Little Rock for a mental examination.

If physicians find her insane, she'll remain indefinitely at the hospital.

If she is declared sane, she'll be returned here for trial on charges of first degree murder—an offense which may be punished by death.

Deputy Prosecutor Scott Campbell released a signed statement by Mrs. Swafford in which she related that she planned for three days to kill the children, Mike, 8, and Donna Ruth, 2.

She blamed desertion by her husband, her impoverished condition and an incurable illness from which she said the little boy suffered.

She said in the statement that she took hypodermics to enable her to carry out her plan to kill the children.

Bodies of the children were found in the family's three-room apartment Monday. Mrs. Swafford was lying on the kitchen floor. She was unconscious from an overdose of sleeping pills which she said she took in an effort to end her own life.

Campbell said Mrs. Swafford related she administered drugs by mouth to both children, then gave them hypodermic injections of poison and finally administered drop after drop.

The deputy prosecutor said she added that "I intended to take two tablets of bichloride of mercury, but I took a handful of sleeping tablets and passed out."

Ex-Con Got the Wrong Help

SPRINGFIELD, Ill. (U) — Robert Fahey and John Leone walked into a tavern Saturday night. A stranger approached Fahey, asking, "How about helping me in a stickup?"

Fahey agreed, asked for particulars, and was told the job was good for \$18,000 to \$20,000. "The question of time came up."

"I'm ready now," said Deputy Sheriff Fahey, flashing his badge.

Fahey and his fellow deputy took Wayne Poor, 32, of nearby Edinburg to Sangamon County Jail, where Poor was held without charge. Poor said he had been released from a federal penitentiary two days earlier and had come to Springfield to report to a probation officer.

## Officers Are in Ocean of Hot Water

CHICAGO (U) — Two hapless policemen paddled around in an ocean of hot water today.

They were accused of arresting a judge, threatening to club him, "roughing him up," poking him with their night sticks and using abusive language. Of course, they didn't realize he was a judge.

In comparison with their troubles, the plight of another officer, John McCarthy, was almost minor. All he was accused of was putting a hammerlock on a widowed grandmother in the middle of one of Chicago's busiest intersections.

Judge John T. Dempsey of Criminal court reported to Camp. Owen Duffy of the Park District office yesterday that he was abused by two Park District officers while aiding his fox terrier in Humboldt park.

Duffy said the officers, Patrolman George E. Kuhler and Donald E. Cummings, would be extensively questioned before any action was taken.

## Royal Pair Enjoyed 'Sexy' Show

By W. J. McGLASSON

HOUSTON, Tex. (U) — The King and Queen of Greece, innocently embroiled today in an American debate on morals, said they "enjoyed very much a Hollywood floor show that Los Angeles officials called "filthy and suggestive."

King Paul and Queen Frederika made their comment at Lubbock, Tex., before arriving here for a rousing long star welcome.

Despite the royal stamp of approval on the Los Angeles show, which included throaty Eartha Kitt singing "I Wanna Be Evil," at least one Los Angeles city councilman was unconvinced.

"What else could they say?" asked Councilman Don Allan. "But in their hearts they must consider us a bunch of yo-yo heads."

Meanwhile, Eddie Rio, West Coast representative for the American Guild of Variety Artists, jumped into the argument with the comment that "It'll be a cold day before another entertainer ever appears for the Los Angeles city fathers at a civic function 'for free.'"

"If these politicians had been forced to buy the entertainment... it would have cost them \$50,000—and they couldn't have had it," Rio said of the performance that followed a Saturday banquet in the royal couples honor.

At Lubbock yesterday King Paul and the queen were told that Los Angeles Mayor Norris Poulson had called the show "filthy and suggestive, as well as 'repugnant to decent citizens.'"

"He wasn't talking about us was he?" the king asked newsmen. Assured that the mayor meant the show, the king said he and the queen "both enjoyed it very much."

Medics Told About New Heart Device

HOUSTON, Tex. (U) — A new medical machine developed here can record a heart beat at the same time it checks the amount of oxygen in your lungs and body cells.

Simultaneously, as it checks and records nine body functions, it can detect brain complications and tell a doctor whether his patient needs artificial respiration. Its development was a community project here.

First visualized by the staffs of the Southwestern Polio Respiratory Center and Baylor University's College of Medicine, the physiograph was put into practical application by Dr. Leslie Geddes. A team of physiologist, clinical men, physicists and medical technicians combined ideas for Geddes.

Yesterday, at a reception where the device was unveiled, Dr. William S. Spencer, director of the respiratory center, said:

"This is an effort to begin a whole flock of body function studies at one time, moment by moment studies because the disease may change the way a body reacts — moment by moment."

Other researchers said the machine can detect when a patient needs drugs to support a lagging heart. It is expected, they said, to be a key detector in diseases of the heart, lungs, and respiratory system and in brain complications or injuries.

## 'Penny Tax' Slayer Starts Sentence

MANDAN, N. D. (U) — Edward L. Crane, 32, a transient farmhand, began a 30-year prison sentence today for the "penny tax" slaying of New Salem, N. D., police chief Ed Mumby.

Crane was sentenced yesterday on a plea of guilty to second degree murder which has made last week.

Crane shot and killed Mumby after the chief had arrested him for firing several shots into a restaurant, when the owner charged Crane's children a one cent sales tax on soda pop.

New accounts of the slaying led

to Crane's wife receiving a \$3,000 legacy she didn't know she was entitled to. She said she plans to live in the Bismarck, N. D., area where the state penitentiary is located so that she and their children can be near her husband.

## Hopes Cold Killed Escaped Python

HUGO, Okla. (U) — The owner of an 18-foot python that escaped from a circus her feared today cold weather may have killed the snake. Most Hugo residents certainly hoped so.

The snake escaped from Lee Bradley, side-show operator for the Al. G. Kelly and Miller Bros. cir-

cus, as he was giving it a bath Sunday.

He said circus employees were directing the search for the tree-climbing reptile that is non-poisonous but wraps itself around its intended prey and crushes it to death.

Bradley said if 40-degree temperatures the past two nights had not killed the snake, it probably would remain in the vicinity of the circus winter grounds about two miles west of this southern Oklahoma town.

Bradley said he was giving the snake a bath and left the room a minute to get washing equipment. The reptile was gone when he returned.

## SW Power Co-op Is Organized

LITTLE ROCK (U) — The Southwest Power Co-operative, representing rural electric co-operatives from four states, was organized here yesterday under an ambitious program of integrating public and private power facilities in six states.

One objective of the association is the purchase of government-owned transmission lines and gen-

erating facilities if the government ever actually does "get out of the power business, as some spokesmen for the present national administration have demanded."

Officers said, however, that first aim is "an adequate supply of power at reasonable rates for farmer in the affected areas."

They add organization of SPC was prompted by restrictions which Congress has placed on the federal Southwestern Power Administration.

Truett Bailey of Cleburne, Tex., who was elected SPC president, said the association hopes to integrate hydroelectric and steam power in that same way as "now achieved by the commercial power

companies through the Southwest Power Pool, except that it will be for benefit of the farmer-owned co-op power system."

The private companies Southwest Power Pool integrates facilities in Arkansas, Kansas, Oklahoma, Louisiana, Mississippi and Missouri.
